

WEED MANAGEMENT RECOMMENDATIONS

STRYAX™
DICAMBA HERBICIDE

Recommendation for Cotton in Arkansas

The state of Arkansas has established additional state specific requirements for Stryax™. See <https://www.stryaxapplicationrequirements.com/> for the state specific requirements.

START CLEAN use appropriate burndown herbicide at labeled rate or tillage

At Planting Apply a Pre-Emergence Application

Glyphosate

labeled rate

PLUS

LABELED PRE EMERGENCE HERBICIDE SUCH AS: COTORAN HERBICIDE, CAPAROL HERBICIDE, DIREX HERBICIDE

Post-Emergence Application After cotton emergence

STRYAX™
DICAMBA HERBICIDE

22 oz/A

PLUS

40 OZ/A QUALIFIED VOLATILITY REDUCTION AGENT + QUALIFIED OIL EMULSION DRIFT REDUCTION ADJUVANT (DRA) 0.3% V/V

PLUS

WARRANT®

3 – 4 pts/A

Labelled Glufosinate may be applied in place of Stryax™ herbicide on XtendFlex® soybeans. Consider adding clethodim (0.094 lb ai) in situations where tough-to-control grasses are present.

2nd Post-Emergence Application Prior to labeled growth stage restrictions, on less than 4 inch weeds

Broadcast In-crop Application

WARRANT®

3 pts/A

OR

S-METOLACHLOR
(see label for use rates)

PLUS

Glyphosate

labeled rate

PLUS

GLUFOSINATE HERBICIDE
on XtendFlex® soybeans
(See label for rates)

Lay-By Hooded Sprayer Post directed

DIREX® HERBICIDE

1.5 pt

OR

VALOR® EZ HERBICIDE

2 fl oz

PLUS

Glyphosate

labeled rate

OR

MONOSODIUM METHANEARSONATE (MSMA)

2 lbs ai

Stryax™ application cutoff in dicamba-tolerant soybeans and cotton is June 30th.
DO NOT tank mix Stryax™ with glyphosate
The state of Arkansas has established additional state specific buffer requirements for Stryax.
See <https://www.stryaxapplicationrequirements.com/> for additional state specific requirements.

Stryax™ herbicide is a restricted use pesticide and must always be tank-mixed with a qualified volatility reduction adjuvant (VRA), such as a VaporGrip® Xtra Agent, and a drift reduction agent (DRA) as required on the product label. For qualified VRAs and other important label information visit www.StryaxApplicationRequirements.com. The user must check www.StryaxApplicationRequirements.com no more than 7 days before application of this product for additional labeling and any additional state-specific labeling. Where applicable, users must comply with additional requirements found on www.StryaxApplicationRequirements.com.

The state of Arkansas has established additional state specific requirements for Stryax™.

See <https://www.stryaxapplicationrequirements.com/> for the state specific requirements.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

No dicamba may be used in-crop with seed with Roundup Ready® Xtend Technology, unless and until approved or specifically permitted in the state of application. Please follow www.roundupreadyxtend.com/pages/xtendimax-updates.aspx for status updates. Dicamba may harm plants that are not tolerant to dicamba.

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer's biotechnology-derived products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Where applicable, commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from commercialized products can only be exported to, or used, processed or sold in countries where all applicable regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for commercialized products. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with products with XtendFlex® Technology.

Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Plants that are not tolerant to glyphosate, dicamba, and/or glufosinate may be damaged or killed if exposed to those herbicides. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs.

Stryax™ herbicide is a restricted use pesticide. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state. Not all products are registered for use in all states and may be subject to use restrictions.
