Texas and Oklahoma Cotton

Texas and Oklahoma have established additional state specific requirements.

See <https://www.stryaxapplicationrequirements.com/> for additional state specific requirements.

START CLEAN use appropriate burndown herbicide at labeled rate or tillage

Pre-Plant Apply a Pre-Plant application 30 days before planting

	PLUS		PLUS	FOMESAFEN*	OR	VALOR® EZ HERBICIDE
30 oz/A		3 pt/A				2 fl oz/A

*east of Hwy 77 in TX; east of Hwy 75 in OK

Pre-Emergence Apply a pre-emergence application 10 days after planting

	PLUS	40 OZ/A QUALIFIED VOLATILITY REDUCTION AGENT + QUALIFIED OIL EMULSION DRIFT REDUCTION ADJUVANT (DRA) 0.3% V/V	PLUS		PLUS	
22 oz/A				3 pt/A		30 fl oz/A

2nd Post-Emergence Application if needed 45 days after planting

OPTION 1		PLUS	40 OZ/A QUALIFIED VOLATILITY REDUCTION AGENT + QUALIFIED OIL EMULSION DRIFT REDUCTION ADJUVANT (DRA) 0.3% V/V	PLUS	
	22 oz/A				30 fl oz/A

OPTION 2	GLUFOSINATE HERBICIDE on XtendFlex® soybeans (see label for use rates)	PLUS	
			30 fl oz/A

Lay-By Hooded Sprayer Post directed

	PLUS	VALOR® HERBICIDE (see label for use rates)	PLUS	(OPTIONAL) ZIDUA
30 oz/A		1 – 2 oz/A		3.25 oz/A

Stryax™ herbicide is a restricted use pesticide and must always be tank-mixed with a qualified volatility reduction adjuvant (VRA), such as a VaporGrip® Xtra Agent, and a drift reduction agent (DRA) as required on the product label. For qualified VRAs and other important label information visit www.StryaxApplicationRequirements.com.

The user must check www.StryaxApplicationRequirements.com no more than 7 days before application of this product for additional labeling and any additional state-specific labeling. Where applicable, users must comply with additional requirements found on www.StryaxApplicationRequirements.com.

Texas and Oklahoma have established additional state specific requirements.

See <https://www.stryxapplicationrequirements.com/> for additional state specific requirements.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

No dicamba may be used in-crop with seed with Roundup Ready® Xtend Technology, unless and until approved or specifically permitted in the state of application. Please follow www.roundupreadyxtend.com/pages/xtendimax-updates.aspx for status updates. Dicamba may harm plants that are not tolerant to dicamba.

Stryax™ herbicide is a restricted use pesticide and must always be tank-mixed with a qualified volatility reduction adjuvant (VRA), such as a VaporGrip® Xtra Agent, and a drift reduction agent (DRA) as required on the product label. Bayer is a member of Excellence Through Stewardship® (ETS). Bayer's biotechnology-derived products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Where applicable, commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from commercialized products can only be exported to, or used, processed or sold in countries where all applicable regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for commercialized products. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with products with XtendFlex® Technology.

The recommendations in this material are based upon trial observations and feedback received from a limited number of growers and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions.

Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Plants that are not tolerant to glyphosate, dicamba, and/or glufosinate may be damaged or killed if exposed to those herbicides. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs.

Stryax™ herbicide is a restricted use pesticide. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state. Not all products are registered for use in all states and may be subject to use restrictions. Bayer, Bayer Cross, Roundup PowerMAX®, Stryax™ herbicide, VaporGrip® and Warrant® Herbicide are registered trademarks of Bayer Group.
